

## **Before I Met You (by John Redding)**

### **Guitar Intro**

There's a tune that I hum,  
All through the day.  
That tune wasn't there before,  
I met you.

I smile when the sun is out  
And the wind is in my face.  
That smile wasn't there before,  
I met you.

### **Refrain**

In all of my years  
I never had a friend like you.  
I want to thank you for loving me, loving me  
like you do.

### **Instrumental**

### **Refrain**

In all of my years  
I never had a friend like you.  
I want to thank you for loving me, loving me  
like you do.

There's a warm glow that resides  
Down in my soul.  
That glow wasn't there before  
I met you.

There's a song that I wrote  
To sing when I am happy.  
That song would not exist  
If had never met you.

### **Outro Instrumental**
